The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hartelius et al. 6,035,857. Note upper back shelf 12 with holes 104,106; planar side portions 40,44 having holes therein, recesses 80.

Claims 8-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Binggely 2,688,408. Note rectangular panels 14 having rectangular panes hingedly attached to each other and having holes therein.

Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar display units are illustrated by Hartelius et al. 6,065,478; Ripps 3,233,744; Lanman et al. 6,591,990; Tremblay 6,796,441.
